Summary

I'm a front-end developer with more than two years of experience. I know my way around **HTML**, **CSS**, **Tailwind CSS**, **JavaScript**, **React**, **Next Js**, and **TypeScript**. I can craft good-looking and easy-to-use websites. I pay close attention to detail to ensure everything looks great.

I've got a solid record of getting high-quality work done, whether I'm on my own or part of a team. I've also worked plenty in remote settings and I'm familiar with tools like **Git**, **Jira**, and **Atlassian**.

Work Experience

Chainfore   **Apr 2025 - Jun 2025**
Associate Software Engineer (on-site)   *Lahore, Punjab, Pakistan*

- Developed and maintained core front-end features for Auxee, a platform enabling teams to collaboratively create and refine AI agents using modular workflows and natural language instructions.
- Implemented scalable and reusable UI components using Material UI and styled-components, improving development speed and visual consistency across the app.
- Built dynamic, high-performance web interfaces with Next.js and TypeScript, reducing page load time and improving SEO performance.
- Resolved over 100 UI and logic bugs, contributing to a more stable and responsive user experience across browsers and devices.
- Collaborated with designers and backend engineers to build user-centric workflows, enhancing usability and reducing user friction during prompt and agent configuration

CWN(code with naqvi)   **Sep 2022 - Dec 2024**
Frontend Developer (remote)   *Lahore, Punjab, Pakistan*

- Spearheaded front-end development for 10+ high-impact projects, achieving around 20% reduction in development time.
- Partnered with designers and back-end developers to deliver intuitive and reliable systems, helping improve user satisfaction and system reliability.
- Conducted code reviews and provided valuable feedback, optimizing code quality and maintainability across diverse projects.
- Tackled a variety of projects, from small components to full-scale web applications, adjusting quickly to changing requirements and priorities.
- Built and maintained front-end components for a wide range of web applications, improving page load times and ensuring a seamless user experience.
- Collaborated closely with back-end developers to integrate user-facing elements with server-side logic on numerous projects.

Technical Skills

• JavaScript	• Redux	• CSS	• HTML
• React JS	• Context API	• Tailwind CSS	• C++
• Next JS	• Typescript	• Bootstrap	• Git

Projects

- **Auxee – Collaborative AI Agent Builder**
  Overview: Contributed to the front-end development of Auxee that enables teams to design, test, and deploy AI agents collaboratively. The system allows users to visually compose agent workflows, define tasks using natural language, and integrate APIs, tools, and datasets. Ensured an intuitive and responsive UI while implementing key features and fixing bugs to improve reliability and usability across devices.
  Tech Stack: Next.js, TypeScript, Material UI, styled-components, Node js

- **SafeHerit: Asset Handoff System with Death Confirmation**
  Overview: Developed a secure web application that ensures user assets are transferred to beneficiaries after death, verified through a validator network.
  Tech Stack: HTML, CSS, Tailwind, React Typescript, Node JS

- **Code With Naqvi - Software Development Agency Website**
  Overview: Designed and built a professional, responsive website for a software agency, showcasing their services and attracting more client inquiries within a few months.
  Tech Stack: HTML, CSS, Tailwind, React, Ruby on Rails

- **Personal Portfolio Website**
  Overview: Created a sleek personal portfolio website to showcase projects, skills, and experience, featuring animations and interactive elements.
  Tech Stack: HTML, CSS, JavaScript

- **Ocean Mist VScode Theme**
  Overview: Ocean Mist is a modern VS Code theme inspired by the calming aqua color, designed for readability and focus.

- **Science Math Smart - An online tutoring website for UK and US based students**
  Overview: Leveraged HTML, CSS, Tailwind, and Javascript to create a user-friendly interface. Ensured cross-browser compatibility and cross-platform compatibility. Implemented responsive web design principle. Collaborated with backend developers to integrate front-end components.
  Tech Stack: HTML, CSS, Tailwind and Javascript

Achievements

Javascript Course Playlist on Youtube

Javascript Course
 ∗ Created and maintained an educational YouTube playlist that teaches JavaScript concepts to learners of all levels.
 ∗ **Playlist Link**

Certificcate of completion   **December 2021**

Web Development Course
 ∗ Successfully completed a comprehensive Web Development course, mastering front-end technologies such as HTML, CSS, JavaScript, and responsive design techniques.
 ∗ Gained proficiency in building dynamic web applications using modern frameworks and tools, including React, Bootstrap, and APIs.
 ∗ Acquired hands-on experience in creating fully functional websites, emphasizing clean code, user experience, and mobile-first design principles.

Education

Govt. Higher secondary school for boys, Jalomore   **2023 - 2024**
Intermediate of Computer Science   *Lahore, Pakistan*

Govt. high School Attoke awan   **2020 - 2022**
Matric in computer Science   *Lahore, Pakistan*
